BLUE & BRAVE EDITIONS
1 in 3 FIFO workers experience mental illness
HARD HATS
STRONG MINDS
While our miners wear hard hats, steel caps and protective gear, nothing can protect them from the mental health struggles they face.
We're launching a special BLUE campaign to raise awareness of mental illness among miners in the summer editions of our three publications, **Australasian Mining Review**, **Australasian Mine Safety Journal** and the **Queensland Mining and Energy Bulletin**.
To get involved, email **kgutzke@aprs.com.au**
